

4" = FAILURE

During an attack, glass failure occurs when a 4" hole is created so that one could reach through to activate the panic bar. Nationwide, the average response time for police to get to public schools is 5 minutes in an emergency situation.

WHAT CAN HAPPEN TO GLASS IN 5 MINUTES?

We invite you to see for yourself.

Join us on Thursday, November 12th @ 11:00 AM for a live demonstration of School Guard Glass™.

Malcolm X Elementary School
